

IQeye Alliance-mini High-resolution IP Cameras

The IQeye Alliance-mini offers high performance in a compact, versatile and attractive minidome package. It is available in standard and interior vandal models from VGA to 2.0 megapixel resolutions, making it the highest resolution mini-dome camera in its class.

The IQeye Alliance-mini camera is designed for discreet indoor use. Each camera includes black and beige trim rings to blend into most indoor architectural installations. These ultra lightweight cameras easily mount to ceilings or walls, and the true 3-axis gimbal, locking shroud and Power-over-Ethernet design saves time and money on installation and maintenance. Optional accessory kits include wall and pendant mount, wide & telephoto lenses.

The IQeye Alliance-mini is completely Power-over-Ethernet, so all that is required for installation is connecting to a PoE enabled Ethernet cable and the IQeye Alliance-mini is ready to go.
